Commenter Type:	Neighbour or general public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	This planning application in its different guises has been on going for some considerable time and seems to be resubmitted regularly. However the situation regarding Millbank and congestion of traffic and parking has not changed and indeed is unlikely to. Whilst we can see that this new build would have far more impact on those at the bottom of the road please do not be mislead that more traffic would not affect us further up the street. Be assured we suffer every day from cars being parked deliveries bring made and tradesmen parking opposite next to and ever

across our drive making our daily activities more difficult to achieve.

Whilst it may seem that one more small/smaller property will not make much difference we can see that it definitely will in the long run. There will be at least 2 more cars more deliveries more visitors and where will they park with only 2 spaces available with the property.

We once again ask you to refuse this totally unnecessary application and allow us to continue our daily problem with parking etc as it currently stands not as it would be with yet another property with access in Millbank. Truth be told this road as others was not built in the 1960's with the amount of cars we have today in mind.

Consideration would be best given to some yellow line restrictive parking as it currently is not an application to make the situation worse. Thank you.

Kind regards
