General properties: Old Farmhouse

100% natural resources

The raw materials are excavated in Weichsel loam layers, the local loam of Aeolian origin dating from the Ice Age. This löss mainly consists of a silt-like fraction, suited ideally for the manufacturing of hand form bricks. By using specific sand types for surface covering, the desired colour is achieved.

Texture

Stock brick

Facing bricks with a sanded-coated and grained structure.

Colour

Shade: multi

Base colour: red

Additional colours: brown, white, yellow, black

Colour description

red-brown-white-corn yellow-anthracite multi-coloured
