Sorry for the late email but I have been away and only received the letter recently.

I want to oppose the mobile home cabin, where are they thinking of putting the cabin, because I have asked them many times to cut back the trees that are hanging over my house, they got a tree surgeon in but they only removed the trees from their house, when I asked them when are they coming back to remove them from my house they said they couldn't do it as it would damage my shed. Sorry but that is not good enough they should have spoken to me when the guys were here.

Plus they don't have that big a garden so where do they think they are going to put the cabin and who is living in it as it is called a mobile home cabin, not a summer house and I already have their loft extension overlooking my garden, I don't feel that I should be subjected to further noise or people over looking my house. They only have parking for 2 vehicles which they already have so where are they going to put further vehicles on the A22.

Surely it is also a health and safety issue as well as they only have one access into their property, they can't access via the bottom of their garden as we back onto the allotments on Imberhorne lane.

Thank you.
