Planning application DM/24/2409

*July 17 '25*

*Dear Katherine Williams*

I'm unsure as to whether I need to express my objection to this application again, but given the timing, i.e. the season when many of the objectors are on holiday, I will voice them again

The site:

Is outside the village envelope

Is in an area of outstanding natural beauty

Is designated for horticultural/agricultural use

And should be considered a heritage asset.

I believe now it is a planning consideration that there is:

No public transport (the volunteer driven community bus makes three trips a week, we neither want nor need big commercial buses on our narrow lanes)

Schools, shop, doctor, et cetera are a minimum of a mile away.

At the meeting with the parish council to consider planning application DM/24/2409

It was universally opposed not only by the village and local residents, but by the parish council as well.

The Tree Report addition.

The site has a number of mature deciduous trees, largely oaks which are valuable for so many reasons, aesthetic, wildlife, eco-friendly.

There are a large number of leylandii trees which are none of the above and would make good timber!
