Appendix 7 – Disputed Sites

1.0 Introduction

- 1.1 This Paper sets out Mid Sussex District Council's housing land supply position and delivery against the Mid Sussex District Plan (2018). It also sets out the Council's five year housing land supply calculation.
- 1.2 It has been prepared having followed the guidance set out in the National Planning Policy Framework (NPPF) and the Planning Practice Guidance (PPG).
- 1.3 This Statement is an update to the Statement published earlier in July. The update is needed to reflect amendments made to two sites within the five year supply during a recent appeal¹. The two sites are: Former Hazeldens Nursery (reduced by 1 dwelling to correct allowance for loss of a unit) and Aberville Park (reduced by 50 dwellings to reflect the specific circumstances of the developer). Tables 7 and 8 below have been revised to reflect the above. The Council's five year supply figure is now 5.04 years. This position was confirmed by the Albourne appeal decision.
- 1.4 The base date remains as at 1st April 2023.

2.0 District Plan Housing Requirement and Supply

Mid Sussex District Plan

- 2.1 The Mid Sussex District Plan was adopted in 2018. Policy DP4: Housing sets a minimum District Housing Requirement of 16,390 dwellings between 2014 – 2031. The policy included a stepped trajectory with an average of 876 dwellings per annum (dpa) until 2023/24, and an average of 1,090 dpa between 2024/25 and 2030/31.
- 2.2 Policy DP4:Housing sets out how the housing requirement would be met. The District Plan allocates four strategic sites, and along with past completions, existing commitments and a windfall allowance would deliver 13,951 dwellings.

District Plan minimum Requirement	16,390
Completions 2014/15	630
Completions 2015/16	868
Completions 2016/17	912
Total Housing Commitments	7,091
Strategic development north and north-west of Burgess Hill (Brookleigh)	3,500
Land north of Clayton Mills, Hassocks	500
Windfall Allowance	450
Elsewhere in the District, as allocated through future Neighbourhood Plans and the Site Allocations document	2,439

Table 1: Extract from DP4:Housing Mid Sussex District Plan

Site Allocations Development Plan Document

- 2.3 As set out in Table 1 above, the District Plan did not allocate sufficient sites to meet the housing requirement in full. This was due to there being insufficient available information about the nature and location of development being proposed to meet the stepped trajectory of 1,090 dpa, at the time the District Plan was adopted. Policy DP4:Housing committed the Council to preparing a Site

¹ Land south of Henfield Road, Albourne. PINS reference APP/D380/W/23/3319542

Allocations Development Plan Document (DPD) to ensure that the District Plan requirement was met in full.

- 2.4 The Site Allocations DPD was adopted in June 2022. Policy SA10: Housing provided an update to the District Plan Housing Requirement set out in DP4, to reflect further delivery and additional commitments since the adoption of the District Plan, as set out in Table 2.

District Plan minimum Requirement	16,390
Completions 2014/15	630
Completions 2015/16	868
Completions 2016/17	912
Completions 2017/18	848
Completions 2018/19	661
Completions 2019/20	1003
Completions 2020/21	1,116
Total Housing Commitments	9,140
Windfall	420
Residual Housing Requirement	797

Site Allocations DPD – Allocations (SA110)	1,704
Total District Plan period (2014-2031) supply	17,297
Over - supply over District Plan period	+907

Table 2: Extract from SA10: Housing Site Allocations DPD

- 2.5 The Site Allocations DPD allocated 22 housing sites, with a total yield of 1,704 dwellings. These allocations, along with other housing commitments meant that there is an oversupply of 907 dwellings against the District Plan requirement.

3.0 Delivery and Supply 2022/23

Delivery

- 3.1 Annual land supply monitoring between 1st April 2022 and 31st March 2023 showed that there were 1,053 completions. 975 were on large sites and 78 on smaller sites. This was 177 units over the annual requirement of 876 dwellings per annum. Despite the difficult economic conditions, legacy impacts from Covid 19 pandemic and Brexit, the completions rate remained strong in Mid Sussex.
- 3.2 All four strategic allocations in the District Plan have commenced, with the final site Clayton Mills, Hassocks, seeing its first completions during 2022/23.
- 3.3 **Appendix 1** lists the completions during 2022/23.
- 3.4 Sites allocated in the Site Allocations DPD are starting to progress with planning applications submitted and approved at SA19 (Land at Rogers Farm, Haywards Heath), SA30 (land to the north of Lyndon, Reeds Lane) and SA25 (land west of Selsfield Road, Ardingly). Planning applications have also been submitted on sites SA12 (land south of 96 Folders Lane, Burgess Hill), SA13 (Land east of Keymer Road, Burgess Hill) SA19 (Land south of Crawley Down Road, Felbridge) and SA29 (Land south of St Stephens Church, Horsted Keynes). Pre – application advice has been sought on SA20 (Land west of Imberhorne Lane, East Grinstead).
- 3.5 Of the 1,704 dwellings allocated in the Site Allocation DPD, 91 now have planning permission, a further 528 have a planning application submitted to the Council and a further 550 are subject to pre-application discussion. This is all in the first year since the adoption of the DPD. It demonstrates an ongoing confidence in the Mid Sussex housing market and demonstrates an ongoing supply of deliverable sites in Mid Sussex.

- 3.6 Over the plan period housing delivery has exceeded the housing requirement, as set out in Table 3. The total over supply is 389 dwellings.

	2014/2015	2015/2016	2016/2017	2017/2018	2018/2019	2019/2020	2020/21	2021/22	2022/23	Total
Requirement	876	876	876	876	876	876	876	876	876	7884
Completions	630	868	912	843	661	1003	1116	1,187	1,053	8273
Shortfall/ Surplus	-246	-8	+36	-33	-215	+127	+240	+311	+177	+389

Table 3: Housing requirement against housing completions

Supply

- 3.7 The adoption of the Site Allocations DPD boosted housing supply during 2022/23. Windfall sites such as prior notification applications and permissions granted on policy compliant unidentified sites also boosted the housing supply. As at 1st April 2023 there are 9,921 dwellings in the housing supply made up of sites with planning permission and allocations. 9,594 of these dwellings are on large sites (**Appendix 2**) and 178 are on site less than 5 units (**Appendix 3**). A further 149 dwellings are on sites delivering communal accommodation.

4.0 Housing Supply and Delivery

Supply from Small Sites

- 4.1 Annual monitoring of sites for 1 – 4 units shows that that only 60% of such permissions are implemented. There is clear evidence that not all permissions on small sites will be implemented. Therefore, the number of units that small sites will yield is discounted by 40% to allow for non-implementation of permissions.

Supply from Communal Accommodation

- 4.2 Planning Practice Guidance (Paragraph: 016a Reference ID: 63-016a-20190626) states that:
 “Plan-making authorities will need to count housing provided for older people against their housing requirement. For Residential institutions, to establish the amount of accommodation released in the housing market, authorities households using Census Data”
- 4.3 Table 4 below calculates the average number of adults per household (Census 2021) in Mid Sussex as 2.38. There is a supply of 344 bedspaces from sites with permission for residential institutions (Listed in **Appendix 2**). With the application of the ratio of 2.38 to the 344 bedspaces gives an equivalent of 145 residential units.

A. Total households (Census 2021)	63,349
B. All usual residents aged 16 and over in households (Census 2021)	150,616
C. Average adults per household (A/B)	2.38
D. Total bed space provision	344
Total residential accommodation released equivalent (D/C)	145

Table 4: Conversion of communal accommodation into housing supply

- 4.4 Accommodation which cannot be occupied as an independent unit, i.e. does not have kitchen facilities or own front door, has been assessed as being within a residential institution. Accommodation, which has its own front door, kitchen and bathroom and therefore capable of

independent accommodation, this is not classified as residential institution and is counted as a single dwelling.

Planning Application Process

- 4.5 An important aspect of the delivery process is the timely granting of planning consents. Mid Sussex is a high performing authority and in 2022/23 performance in processing major planning applications within 13 weeks (or within an agreed extension of time) was 99%. Minor sites also make an important contribution to the 5 year supply; 99% of minor applications were determined within 8 weeks.
- 4.6 The Council has considered what actions it can take to improving the time taken to commence delivery on housing sites. One of the tools suggested in the PPG at paragraph 31 is to consider imposing planning conditions requiring that development must begin within a timescale shorter than the relevant default period. In late 2018 the Council agreed to start applying a '2 year and 1 year condition' on outline planning permissions rather than the standard '3 year and 2 year condition'. This approach was publicised at the Mid Sussex Developers' Forum Meeting in March 2019². Over time, ongoing monitoring of housing delivery will identify how this action has impacted on delivery rates.
- 4.7 The Council also seeks to enter into Planning Performance Agreements on larger sites to facilitate the timely determination of planning applications. Examples of this include, Brookleigh, Burgess Hill where Council have a PPA with Homes England; Hurst Farm, Haywards Heath Council have PPA with Homes England and Imberhorne Farm, East Grinstead where the Council and developer are currently drafting a PPA ahead of the submission of a planning application. The Council also enters into Statements of Common Ground on more complex sites to gain a better understanding of housing and infrastructure delivery.

Housing Delivery Test

- 4.8 The Housing Delivery Test was introduced in the July 2018 update to the NPPF. The Housing Delivery Test is an annual measurement of housing delivery for each local authority and the first results were published in February 2019 by Ministry of Housing, Communities and Local Government (MHCLG)³. The implications of a local authority not meeting the Housing Delivery Test are set out in the NPPF⁴. Where the Housing Delivery Test indicates that delivery has fallen below 95% of the local planning authority's housing requirement over the previous 3 years then it is required to prepare an action plan. Where delivery has fallen below 85% of the housing requirement a 20% buffer should be added to the five year supply of deliverable sites.
- 4.9 Historically, Mid Sussex has performed well against the measurement result:

2018	110%
2019	95%
2020	91%
2021	124%

- 4.10 The latest 2021 measurement result for Mid Sussex was 124%⁵. This result is based on monitoring years 2018-19, 2019-20 and 2020-21.

² The Mid Sussex Developers Forum is a group that is run by MSDC with the objective of undertaking continuous review of the planning service in Mid Sussex in order to ensure that the service is efficient and effective. The Forum is regularly attended by over 20 representatives from the development industry that meets a couple of time a year to discuss Planning Policy and Development Management matters.

³ The methodology used for calculating the Housing Delivery Test is set out in [Housing Delivery Test measurement rule book - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/housing-delivery-test-measurement-rule-book)

⁴ Footnotes 7 and 41, Paragraph 76 of the National Planning Policy Framework at <https://www.gov.uk/government/publications/national-planning-policy-framework--2>

⁵ [Housing Delivery Test: 2021 measurement - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/publications/housing-delivery-test-2021-measurement)

- 4.11 For the purposes of the Housing Delivery Test Mid Sussex is a 5% authority. It is not required to apply a buffer due to any under delivery against the Housing Delivery Test.
- 4.12 Whilst no Housing Delivery Test measurement results had been published for 2022, it is anticipated that the Housing Delivery Test for Mid Sussex for 2022 will continue to show good performance. The 2022 calculation will be based on monitoring years 2019-20, 2020-21 and 2021-22. The total completions for these years will be 3,354⁶ against a requirement of 876 x 3 = 2,628⁷. This gives an estimated figure of 128%⁸. This will mean that no action plan will be required and a 5% buffer will continue to be applied.

Mid Sussex Lead in times

- 4.13 A local analysis of the lead in time for onsite delivery has been undertaken to get a better understanding of delivery timescales for Mid Sussex (**Appendix 4**). Sites of 30 units or more have been assessed by comparing time taken from submission of a planning application to the first completions on site. The average for all size of sites is just over two years.

Mid Sussex build out rates

- 4.14 A local analysis of the build out rates for sites has been undertaken to get a better understanding of delivery timescale for Mid Sussex (**Appendix 5**). Sites of 30 units or more have been assessed. Table 5 shows the average build out rate and demonstrates that the larger sites have the greatest number of completions per year.

Site Size	Average number of completions per year
30 – 49	30
50 - 99	36
100 – 399	48
400 or more	50

Table 5: Average number of completions per year

⁶ Note: these figures are based on 2019/20 at 1,005 and 2020/21 at 1,136 and 2021/22 at 1,212 as in published HFR data.

⁷ Note: 2019/20, 2020/21 requirement figures were adjusted. However have used requirement without adjust as a 'worst case' estimate.

⁸ Note: these figures are subject to publication of final HDT result for 2022; were expected in November 2022

5.0 Five Year Housing Land Supply Calculation

- 5.1 The 5 year housing land supply is calculated with a base date of 1st April 2023.
- 5.2 The Site Allocation Development Plan Document Inspector considered the issue of the 5 Year Housing Land Supply during the Examination. It was one of the matters that he sought views from interested parties and the Council during the Examination. In his report the Inspector concluded:
- “...I am satisfied that the Council can demonstrate, to a reasonable degree of certainty, a 5 year supply of housing land to meet the Plan’s requirements.”
- 5.3 The issue of 5 year housing land supply has also been considered at a number of planning appeals, most recently in an appeal decision issued in October 2023⁹.

Housing Requirement

- 5.4 Paragraph 74 of the National Planning Policy Framework (NPPF) states that Local Authorities should:
- “... Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old ”
- 5.5 The adopted Mid Sussex District Plan (2018) states in Policy DP4: Housing that the annual housing requirement between 2014 and 2023/24 is 876 dwellings per year. The policy includes a stepped trajectory which rises to 1,090 dwellings per year between 2024/25 and 2030/31. However, as the adopted strategic policies for Mid Sussex became over five years old in March 2023, the requirement of DP4 Housing is no longer the correct starting point for the five year supply calculation.
- 5.6 In accordance with the NPPF as the adopted strategic policies are more than five years old there is a requirement to make an assessment against the local housing need. The Standard Method calculates the local housing need as 1,090 per year. This equates to $1,090 \times 5 = 5,450$ for the five year period.

Dealing with past under delivery

- 5.7 The Planning Practice Guidance, para 31¹⁰, states that when addressing the issue of past under delivery of housing against the housing requirement:
- ” The level of deficit, or shortfall will need to be calculated from the base date of the adopted plan and should be added to the plan requirements for the next 5 year period (Sedgefield approach), then the appropriate buffer should be applied. If a strategic policy-making authority wishes to deal with past under delivery over a longer period, then a case may be made as part of the plan-making and examination process rather than on a case by case basis on appeal”.
- 5.8 The issue of past under delivery was considered at the District Plan Examination. In the Planning Inspector’s report, he acknowledged, at paragraph 35, that whilst there had been an under delivery

⁹ Land south of Henfield Road, Albourne. PINS reference APP/D380/W/23/3319542

¹⁰ PPG, July 2019, Paragraph: 031 Reference ID: 68-031-20190722 <https://www.gov.uk/guidance/housing-supply-and-delivery#year-housing-land-supply>

of housing since the start of the Plan period, his preference would be that a shortfall should be dealt with in the first five years of the Plan period. However, he went onto state:

“ ... that spreading the shortfall over the plan period would be a realistic approach which would have proper regard to the start dates and likely delivery rate of the main strategic sites and the timing of the Site Allocations DPD.”¹¹

- 5.9 The Council considers that it is still appropriate to spread any shortfall in delivery over the Plan period.
- 5.10 The District Plan has a start date of 2014. As set out in Table 3 there is a surplus in supply since the start of the Plan period of 389 units. Therefore, there is no shortfall to be added to the five year land supply calculation.
- 5.11 Paragraph 74 of the NPPF goes onto state:
- “ ...the supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:
- a) 5% to ensure choice and competition in the market for land; or
 - b) 10% where the local planning authority wishes to demonstrate a five-year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or
 - c) 20% where there has been significant under delivery of housing over the previous three years to improve the prospect of achieving the planned supply. ”
- 5.12 As the Council is not seeking to demonstrate supply through an annual position statement or recently adopted plan it is not required to add a 10% buffer. There has not been significant under delivery as demonstrated by the HDT results so it is not required to add a 20% buffer. Therefore it is only required to add a 5% buffer to ensure choice and competition.

Total Five Year Housing Requirement

- 5.13 The Table 6 below sets out the Council's housing requirement

Annual Requirement using Standard Method	1,090 x 5	5,450
Shortfall spread over remaining plan period	0	0
Total		5,450
Buffer (see para 4.8 above)	5%	273
Total five year supply requirement		5,723

Table 6: Five year supply housing requirement

Housing Supply

- 5.14 The NPPF advises that Councils should demonstrate a five year of supply of deliverable sites. The definition of a 'Deliverable' site is set out in Annex 2 of the NPPF, which states:

¹¹ Inspectors Report can be found at [The Planning Inspectorate - Report to Mid Sussex District Council March 2018](#)

“to be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).

b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years”¹².

- 5.15 The level of evidence required to demonstrate deliverability varies according to the scale, type of permission and planning status of the site. This statement provides robust evidence to demonstrate that sites with outline planning permission and those allocated in the development plan are deliverable housing sites. There are no sites with a grant of permission in principle or identified on a brownfield register that contribute to the 5 year housing supply.

Detailed planning permission

- 5.16 All sites with detailed permission (Full or Reserved Matters) are also considered to be deliverable until the permission expires unless there is clear evidence that homes will not be delivered within five years. Annex 2 of the NPPF states that a site with planning permission:

“..... should be considered deliverable until the permission expires, unless there is clear evidence that homes will not be delivered within five years”¹³.

- 5.17 Annual monitoring of sites for 1 – 4 units shows that only 60% of such permissions are implemented. There is clear evidence that not all permissions on small sites will be implemented. Therefore, the number of units that small sites will yield is discounted by 40% to allow for non-implementation of permissions.

- 5.18 Large sites have been assessed on a site by site basis when making an assessment of the likelihood of the site being delivered, rather than a standard discount being applied. An analysis of local build out rates on large sites has been undertaken, as set out in **Appendix 5**. The findings of this work has informed the assumptions made where there has been no developer confirmation of delivery rates.

Outline Permission/ Development Plan Allocations

- 5.19 With regards to outline permissions and Development Plan allocations, Annex 2 of the NPPF states:

“...it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years”.¹⁴

- 5.20 The PPG¹⁵ provides the following further information on the types of evidence that can be used to demonstrate deliverability may include:

- Current planning status, for example how much progress had been made towards approving reserved matters
- Any progress being made towards the submission of an application

¹² Annex 2, NPPF, 2023

¹³ NPPF, (2023), Annex 2

¹⁴ NPPF, (2023), Annex 2

¹⁵ PPG, (July 2019) Paragraph: 007 Reference ID: 68-007-20190722 <https://www.gov.uk/guidance/housing-supply-and-delivery#confirm-5-year>

- Any progress with site assessment work; and
- Any relevant information about site viability, ownership constraints or infrastructure provision.

Windfall Allowance

5.21 In 2022 the Council appointed consultants Troy to undertake an assessment of the potential for new homes to be delivered on sites within the existing urban areas. As part of this work Troy looked at the potential of small sites (fewer than 5 units) to contribute to the housing supply, to inform a windfall allowance for small sites. The report¹⁶ concludes that a small sites allowance (fewer than 5 units) of 79 homes per year, is an evidenced informed figure that could be used to indicate future supply. Therefore, in years 4 and 5 of the five year supply period an allowance of 79 homes is included as a source of supply, 158 in total. No windfall allowance is included in years 1 – 3 to avoid double counting with windfall permissions, on sites with extant permissions that will be completed within 3 years of the grant of permission.

Deliverable Sites

5.22 **Appendix 6** sets out the deliverable sites that contribute to the Council’s 5 year land supply and are deliverable within five years. In accordance with the NPPF and PPG the Council has engaged with the site promoters and developers to gain a robust understanding of anticipated build out rates.

5.23 In the limited cases where developers have not responded, the Council has made realistic assumptions about the deliverability of the site based on a number of factors such as progress with applications, current use of the site and consideration of any potential barriers to delivery such as infrastructure constraints.

5.24 Table 7 below summaries the sources of housing supply included in the five year supply calculation.

'A' List Sites ¹⁷	
Small Sites with Planning Permission 5 - 9 units	153
Small Sites with Planning Permission 1 - 4 units	178
Major Sites (10 + units) with detailed Planning Permission (Full and REM applications)	3,495
'B' List Sites ¹⁸	
Outline permission for Major development	752
Allocated in Development Plan	1,034
Windfall Allowance	158
Total Housing Supply in years 1 - 5	5,770

Table 7: Summary of sites that make up five year supply

Disputed Sites

5.25 In line with the PPG, Paragraph 15¹⁹, the Council must also identify sites where consensus on delivery timeframes has not been reached. In addition there are some sites where the Council is not satisfied that there is sufficient evidence, at the time of the land supply calculation, to demonstrate at the site is deliverable within five years. These sites are known as the 'Disputed Sites' and are set out in **Appendix 7**.

Completions Schedule: Communal accomodation from 1st April 2022 to 31st March 2023

	Site Total (gross overall)	Gross Units Completed THIS YEAR	Losses THIS YEAR	Net Units Completed THIS YEAR	Ratio applied	Site Total completions with ratio applied
None						0

Total Communal accomodation	0
Total Communal accommodation completions with ratio applied	0

(Net) Completions Communal Accommodation	0
(Net) Completions on large sites:	975
(Net) Completions on Small Sites	78
(Net) All completions 2021/2022	1053

'Completions' are residential units which finished construction between 1st April 2022 and 31st March 2023 on all sites across the District. Some larger sites deliver completions across several years. Mid Sussex District Council completion figures may differ from West Sussex County Council completions figures to be published in due course. This is caused by monitoring over a different period of time and does not affect the accuracy of either dataset.

APPENDIX 2 - Commitments lge sites

Mid Sussex District Council: Commitment Schedule as at 1st April 2023, large sites (5+ units) over Plan Period

Town / Parish (NP Area)	Ward	Site Address (sites of 6+ units)	Overall Total (Gross)	Overall Losses (Gross)	Overall Cmplts (Net)	Total Remaining (Net)	PP Ref #	Expiry Date	SHLAA ID#

TOTAL NET: 178.4

Notes:

Smaller sites with permission (1-4 units) are not individually assessed, although a **discount of 40%** is applied to the overall figure to allow for non-delivery. This discount is an established method used in WSCC monitoring that assumes only 60% of dwellings with planning permission on small sites will achieve net completions.

APPENDIX 4 - Lead in Times report

Planning Application Reference	Site	Total number of units on site	Total number of units in phase	Outline application date received	Outline Decision date	Approved at Appeal	Reserved Matters or Full application Received date	Reserved Matters or Full approval	Date of First completion	Time between application received and permission		Time between outline decision and detailed permission		Total time application received to estimated first completion

Notes:

An Assessment has been made of the delivery rates of sites of 30 units or more.
Sites that have completions between 1st April 2014 to 31st March 2023 have been included in the assessment.
Decision made at appeal have not been included in the average calculation (REM have been included).
Where there are a number of phases and REM applications the outline application has only been included once.
